WORK EXPERIENCE

SAP Software Solutions   **Walldorf, Germany**
Intern; received return offer   *May 2017*

Generated more accessible information services for employees by developing and programming a new website with SAP's website management program. Managed the website of the 'Digital Board Room', innovative concept to offer interactive presentation to further enhance potential client's experience and impression. Organized and reviewed timelines for client-contracts and created comprehensive reports for each target region on a weekly and monthly basis. Monitored daily website statistics to improve convenience for employees at SAP. Conducted extensive research that placed emphasis on product which was presented on website.

Heidelberg iT   **Heidelberg, Germany**
Computer Engineering Intern, Assistant Project Manager; received return offer   *January 2020 – December 2020*

Repeatedly presented networking plans and associated products to potential clients. Taught myself HTML and CSS through online resources to create encrypted E-Mail signatures and visually appealing newsletters. Employed as subcontractor for US military project to improve existing utility meters. Collected and analyzed data from various networking projects to aid colleagues in finding core information more rapidly.

- Appointed safety manager for on-site constructions throughout Germany. Responsible for enforcing safety regulations by teaching workers importance of proper equipment usage.
- Traveled across Germany to different worksites to conduct thorough surveys of existing material and necessary equipment.
- **Reference:** Steffen Merz – Project Manager: s.merz@heidelberg-it.de

Student Web Designer   **Remote**
Freelancer   *October 2020 – Today*

Designed and programmed user-friendly website for medical start-up and business clubs. Utilized marketing strategies to invoke clients' interest and attention. Incorporated animations and responsiveness for user's convenience. Applied programming knowledge to customize and create content for the sub-pages. Created e-commerce website that generates $100,000 net profit on monthly basis. Familiarized myself with company's products and compared and evaluated competition's approach to website design. Worked together with Head of Project-management and CEO of companies to identify and categorize most important product information.

- Continue to monitor daily website statistics to improve client's convenience of navigating website.
